

## TRAVEL THE WORLD PLANNING & SAVING FOR A TRIP

### 1. Decide where you want to go

- Warm or cool
- Beach or touristic

### 2. Decide length of trip

- 1 week, 2 weeks, 1 month

### 3. Research your costs

- This might affect where and how long your trip will be
- Do you want to backpack, stay in B&B, or stay in luxury hotels
- Are there going to be attractions to pay for
- Are you eating in restaurants or making some of your own meals

### 4. Start saving money

- Write down daily expenses and adjust – small adjustments add up and small purchases add up (i.e. bottle of water, snacks, coffee)  
Example: \$2000 trip in 8 months – save \$8.33 per day that is \$56/wk
- Open a TFSA account and do a weekly PAC for the amount you need to save (add a little for savings too while you are at it).

### 5. Stay Focused and Inspired

- Post a picture of your destination at work or on your fridge
- Pin it on Pinterest
